

CAIPET
Bedding & Solutions

FIR CHIPS

Bedding made of high-absorbing wood chips produced from red fir trees. The bedding is dried, sieved and thoroughly dusted, free of pesticide residues and chemical microbiological contaminants. The toxicity levels of the bedding are low enough to ensure the well-being of the animals.

Product subject to controls by an authorized analysis laboratory.

- High absorption: 3,5 l/Kg
- Absorbs natural odors
- Very low dust content
- 100% natural product
- Humidity: Max 8%

Prepared in autoclavable bags of 10 Kg.

Each bag is individually labelled with batch number and production date.

Pallet 80x120cm of 30 bags

The pallet is wrapped with a plastic film for a complete protection against external events.

Option:

Irradiation to 25kgy with double packaging

Caipet is one of the leading companies in Italy in the production of bedding and environmental enrichment products for laboratory animals. Caipet performs regular controls to ensure the quality and the absence of contaminants in its products. Our customers can rely on pre- and post sales assistance through direct and constant contact.
