Landing Net Zebrafish

The Zebrafish net is an indispensable tool for the gentle and safe handling of fish.

Made of a soft, high quality, tear-proof nylon net, it is specifically designed to avoid any damage or stress to fish during their transfer or capture. The net is light but strong, and its softness minimises the risk of damaging the delicate fins of the fish. For frequent and long-lasting use.

The ergonomic handle is plastic-coated, ensuring a secure and comfortable grip even in wet conditions. This reduces stress for both operator and fish, making handling easier and safer.

The Zebrafish net is available in different sizes to suit various types of fish and aquariums:

10cmx8.5 / 4-inch

7.5cmx6.5 / 3-inch

La Caipet è leader in Italia per la produzione di lettiera e arricchimento ambientale per animali da laboratorio.

Caipet esegue regolarmente controlli sui propri prodotti per garantirne la qualità e l'assenza di contaminanti.

I clienti Caipet possono contare su un servizio di assistenza pre e post vendita, gestito attraverso contatto diretto e costante.

Certificato UNI EN ISO 9001:2015
